The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans must include the following elements:

- Assessment of school crime committed on school campuses and at school-related functions
- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March of each year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

Small school districts (with an enrollment of 2,500 students or less) may develop a comprehensive district safety plan to encompass all schools within the district, which would fulfill each individual school's comprehensive safety plan requirement. It is not required that small school districts have their safety plans developed or approved by site councils or designated safety committees; the plans must only be approved by the district board of trustees. However, a district plan should be developed in cooperation with local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, and others who may be interested in the prevention of campus crime and violence.

As defined in **BUSD Board Policy 0450**, BUSD recognizes that students and staff have the right to a safe and secure campus where they are free from physical and psychological harm. The Board is fully committed to maximizing school safety and to creating a positive learning environment that includes strategies for violence prevention and high expectations for student conduct, responsible behavior, and respect for others.

The Board shall review the comprehensive district wide and/or school safety plan(s) in order to ensure compliance with state law, Board policy and administrative regulation. Approval of the plan shall occur at a regularly scheduled meeting.

A copy of the comprehensive school safety plan shall be available for review at the Morrill Middle School administration offices and online at www.morrill.berryessa.k12.ca.us.

It is the philosophy of the district that:

1. All students can learn and succeed.
2. Every student should have an opportunity to receive a quality education regardless of his/her social, cultural, or economic background.
3. Every student in the district has a right to be free from discrimination, harassment, intimidation, and bullying, as prohibited by law or district policy.
4. The future of our nation and community depends on students possessing the skills to be lifelong learners, collaborative and creative problem solvers, and effective, contributing members of a global and technologically advanced society.
5. Highly skilled and dedicated teachers and educational support staff have the capacity to guide students toward individual achievement and growth, and have a direct and powerful influence on student learning and life experiences.
6. A safe, nurturing environment and positive school climate are necessary for learning, academic achievement, and student development.
7. Parents/guardians have a right and an obligation to be engaged in their child's education and to be involved in the intellectual, physical, emotional, and social development and well-being of their child.
8. The needs of the whole child must be addressed, as the ability of children to learn is affected by social, health, and economic conditions and other factors outside the classroom.
9. Early identification of learning and behavioral difficulties and timely and appropriate support and intervention contribute to student success.
10. Students and staff are encouraged and motivated by high expectations and recognition for their accomplishments.
11. School improvement is a dynamic process requiring flexibility and innovation to meet the needs of students in a changing world.
12. Professional development for the Board and district staff is essential for the growth and success of the district and its students.
13. The diversity of the student body and school staff enriches the learning experience, promotes cultural awareness and acceptance, and serves as a model for citizenship in a global society.
14. A common set of norms and protocols is crucial to effective governance.
15. Communication, trust, respect, collaboration, and teamwork strengthen the relationship among Board members and between the Board and Superintendent, and contribute to the effectiveness of the governance team.

16. The community and district are inextricably connected partners, wherein the community's engagement in issues that impact the schools enhances the district's programs and student learning.
17. Two-way communication with all stakeholders is essential for establishing continuity, support, and shared goals both within the district and with the surrounding community.
18. The Board has a responsibility to advocate on behalf all students, keep current on legislative issues affecting education, and build positive relationships with local, state, and federal representatives.
19. A fiscally sound budget which is reflective of the district's vision is imperative to the financial stability of the district and to the attainment of its goals.
20. Responsibility for district programs and operations is shared by the entire educational community, with ultimate accountability resting with the Board as the basic embodiment of representative government.
21. Student equity will be prioritized in meeting the needs of all students.
22. Cultural proficiency will be celebrated and promoted into all instructional practices.

An assessment of School Safety among Morrill Middle School was conducted and included a review of survey data from the Panorama Student Survey and rates of disciplinary actions and truancy as collected through the California Department of Education Uniform Management Information Reporting System (UMIRS). Additional input was received from school administrators and law enforcement partners during the workshops conducted as part of the process to develop this safety plan. Reports from previously conducted physical site safety assessments were also reviewed.

Some of the key safety concerns raised during the assessment of school safety include:

Due to a high number of stranger on campus incidents reported by Physical Education and other teachers or students, the campus is currently too open to the public for us to control.

A number of incident reports from district staff and on-site staff have identified broken concrete and other physical safety concerns.

In the 2017-2018 Panorama Survey, students identified their major concerns as safety and self-efficacy, while overall the staff scored us in the lowest percentiles regarding all areas.

Suspensions of students of need and minorities are still areas of concern.

Due to staffing issues, we are severely understaffed for our noon-duty positions. Of 7 total spots, we only had 3 filled entering into the 2018-2019 school year.

As written in **BUSD Board Policy 5142**, BUSD recognizes the importance of providing a safe school environment that is conducive to learning and helps ensure student safety and the prevention of student injury. The Superintendent or designee shall implement appropriate practices to minimize the risk of harm to students, including, but not limited to, practices relative to school facilities and equipment, the outdoor environment, educational programs, and school-sponsored activities.

According to **BUSD Board Policy 5141.4**, The Board of Trustees is committed to supporting the safety and well-being of district students and desires to facilitate the prevention of and response to child abuse and neglect.

The Superintendent or designee shall develop and implement strategies for preventing, recognizing, and promptly reporting known or suspected child abuse and neglect. The Superintendent or designee may provide a student who is a victim of abuse with school based mental health services or other support services and/or may refer the student to resources available within the community as needed.

Child Abuse Prevention

The district's instructional program shall include age-appropriate and culturally sensitive child abuse prevention curriculum. This curriculum shall explain students' right to live free of abuse, include instruction in the skills and techniques needed to identify unsafe situations and react appropriately and promptly, inform students of available support resources, and teach students how to obtain help and disclose incidents of abuse.

The district's program also may include age-appropriate curriculum in sexual abuse and sexual assault awareness and prevention. Upon written request of a student's parent/guardian, the student shall be excused from taking such instruction. (Education Code 51900.6) The Superintendent or designee shall, to the extent feasible, seek to incorporate community resources into the district's child abuse prevention programs and may use these resources to provide parents/guardians with instruction in parenting skills and child abuse prevention.

Child Abuse Reporting

The Superintendent or designee shall establish procedures for the identification and reporting of known and suspected child abuse and neglect in accordance with law.

Procedures for reporting child abuse shall be included in the district and/or school comprehensive safety plan. District employees who are mandated reporters, as defined by law and administrative regulation, are obligated to report all known or suspected incidents of child abuse and neglect. The Superintendent or designee shall provide training regarding the duties of mandated reporters.

BUSD Administrative Regulation 5141.4 provides additional detail including definitions of child abuse and procedures for reporting suspected incidents of child abuse.

A mandated reporter shall make a report using the procedures described below (with reference to the full text of AR 5141.4) whenever, in his/her professional capacity or within the scope of his/her employment, he/she has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. The reporting duties of mandated reporters are individual and cannot be delegated to another person.

When reporting a witnessed or suspected case of child abuse, the following steps shall be taken by the appropriate personnel.

Step 1 – Initial Telephone Report: Immediately or as soon as practicable after knowing or observing suspected child abuse or neglect, a mandated reporter shall make an initial report by telephone to any police department (excluding a school district police/security department), sheriff's department, county probation department if designated by the county to receive such reports, or county welfare department. (Penal Code 11165.9, 11166) Child Protective Services (CPS) 408-299-2070 When the initial telephone report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

Step 2 – Written Report: Within 36 hours of knowing or observing the information concerning the incident, the mandated reporter shall then prepare and either send, fax, or electronically submit to the appropriate agency a written follow-up report, which includes a completed Department of Justice form (SS 8572). (Penal Code 11166, 11168)

The Department of Justice form may be obtained from the district office or other appropriate agencies, such as the county probation or welfare department or the police or sheriff's department.

Reports of suspected child abuse or neglect shall include, if known: (Penal Code 11167)

- a. The name, business address, and telephone number of the person making the report and the capacity that makes the person a mandated reporter
- b. The child's name and address, present location, and, where applicable, school, grade, and class

- c. The names, addresses, and telephone numbers of the child's parents/guardians
- d. The name, address, telephone number, and other relevant personal information about the person who might have abused or neglected the child
- e. The information that gave rise to the reasonable suspicion of child abuse or neglect and the source(s) of that information

The mandated reporter shall make a report even if some of this information is not known or is uncertain to him/her. (Penal Code 11167) The mandated reporter may give to an investigator from an agency investigating the case, including a licensing agency, any information relevant to an incident of child abuse or neglect or to a report made for serious emotional damage pursuant to Penal Code 11166.05. (Penal Code 11167)

Step 3 – Internal Reporting: The mandated reporter shall not be required to disclose his/her identity to his/her supervisor, the principal, or the Superintendent or designee. (Penal Code 11166)

However, employees reporting child abuse or neglect to an appropriate agency are encouraged, but not required, to notify the principal as soon as possible after the initial telephone report to the appropriate agency. When so notified, the principal shall inform the Superintendent or designee.

The principal so notified shall provide the mandated reporter with any assistance necessary to ensure that reporting procedures are carried out in accordance with law, Board policy, and administrative regulation. At the mandated reporter's request, the principal may assist in completing and filing the necessary forms.

Reporting the information to an employer, supervisor, principal, school counselor, coworker, or other person shall not be a substitute for making a mandated report to the appropriate agency. (Penal Code 11166)

The Superintendent or designee shall develop and maintain a disaster preparedness plan which details provisions for handling emergencies and disasters and which shall be included in the district's comprehensive school safety plan. (Education Code 32282) (cf. 0450 - Comprehensive Safety Plan) (cf. 3516.3 - Earthquake Emergency Procedure System)

The Superintendent or designee shall also develop and maintain emergency plans for each school site. In developing the district and school emergency plans, the Superintendent or designee shall collaborate with city and county emergency responders, including local public health administrators.

The Superintendent or designee shall use state-approved Standardized Emergency Management System guidelines and the National Incident Command System when updating district and site-level emergency and disaster preparedness plans.

The Board shall grant the use of school buildings, grounds, and equipment to public agencies, including the American Red Cross, for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The Board shall cooperate with such agencies in furnishing and maintaining whatever services they deem necessary to meet the community's needs. (Education Code 32282) (cf. 1330 - Use of School Facilities)

School employees are considered disaster service workers and are subject to disaster service activities assigned to them. (Government Code 3100)

BUSD has defined emergency response procedures for earthquakes and other hazards in the Crisis Response Plans described in the appendices of this plan. This district follows the recommended “drop, cover and hold on” procedures for earthquake response. The plans also align with standards established by NIMS and SEMS and call for response actions to be coordinated using ICS. As stated in **BUSD Board Policy 5144** the Board of Trustees is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and to preparing students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

Through **BUSD Board Policy 5144.1 and 5144.2** the Board of Education has established policies and standards of behavior in order to promote learning and protect the safety and well being of all students. When these policies and standards are violated, it may be necessary to suspend or expel a student from regular classroom instruction. Except where suspension for a first offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct.

The policy also describes the guidelines, in accordance with state and federal law, Student Due Process, On-Campus Suspension Program, Required Parental Attendance and the Decision to Not Enforce Expulsion Order available to the school board.

For campus-specific guidelines for suspension and expulsion of students, including behavior that may result in suspension or expulsion on the first offense, please refer to the student and parent handbook distributed to all students at the start of each school year. Current versions will be available for review alongside this comprehensive school safety plan in the District Office.

Additional code reference: Education Code 49079

As described in **BUSD Board Policy 4158, 4258, and 4358**: The Superintendent or designee also shall ensure that employees are informed, in accordance with law, of crimes and offenses committed by students who may pose a danger in the classroom.

The Superintendent or designee may make available at appropriate locations, including, but not limited to, district and school offices, gyms, and classrooms, communication devices that would enable two-way communication with law enforcement and others when emergencies occur.

The Board of Trustees desires to provide a safe and orderly work environment for all employees. As part of the district's comprehensive safety plan, the Superintendent or designee shall develop strategies for protecting employees from potentially dangerous persons and situations and for providing them with necessary assistance and support when emergency situations occur.

Any employee against whom violence or any threat of violence has been directed in the workplace shall notify the Superintendent or designee immediately. The Superintendent or designee shall initiate legal and security measures to protect the employee and others in the workplace. In addition, the Superintendent or designee may initiate legal proceedings against any individual to recover damages for injury caused by the willful misconduct of that individual to the person or property of an employee or another person on district premises.

The Superintendent or designee shall ensure that employees are trained in crisis prevention and intervention techniques in order to protect themselves and students. Staff development may include training

Additional code reference: Education Code 200-262.4

A comprehensive prohibition of discrimination and harassment across all district programs and activities is identified in **BUSD Board Policy 0410**, which states that The Board of Trustees Board of Trustees is committed to providing equal opportunity for all individuals in education. District programs, activities, and practices shall be free from unlawful discrimination, including discrimination against an individual or group based on race, color, ancestry, nationality, national origin, ethnic group identification, age, religion, marital, pregnancy, or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity or expression, or genetic information; a perception of one or more of such characteristics; or association with a person or group with one or more of these actual or perceived characteristics.

Among the policies included in this comprehensive set of anti-discrimination and harassment policies are two that clearly define the expectations and procedures regarding occurrences of discrimination and sexual harassment:

BUSD Board Policy 5145.3 states that The Board of Trustees desires to provide a safe school environment that allows all students equal access and opportunities in the district's academic, extracurricular, and other

educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student's actual or perceived race, color, ancestry, national origin, nationality, ethnicity, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, or gender expression or association with a person or group with one or more of these actual or perceived characteristics.

This policy shall apply to all acts related to school activity or to school attendance occurring within a district school, and to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also includes the creation of a hostile environment through prohibited conduct that is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. He/she shall provide training and information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. He/she shall report his/her findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students. Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall be subject to disciplinary action, up to and including dismissal.

As written in **BUSD Board Policy 5145.7**, The Board of Trustees is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board

also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The district strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult who has experienced off-campus sexual harassment that has a continuing effect on campus to immediately contact his/her teacher, the principal, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the principal or a district compliance officer. Once notified, the principal or compliance officer shall take the steps to investigate and address the allegation, as specified in the accompanying administrative regulation.

The Superintendent or designee shall take appropriate actions to reinforce the district's sexual harassment policy.

Instruction/Information

The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained BP 5145.7
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and prompt action shall be taken to stop any harassment, prevent recurrence, and address any continuing effect on students
6. Information about the district's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made
7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues
8. A clear message that, when needed, the district will take interim measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation and that, to the extent possible, when such interim measures are taken, they shall not disadvantage the complainant or victim of the alleged harassment

Complaint Process and Disciplinary Actions

Sexual harassment complaints by and against students shall be investigated and resolved in accordance with law and district procedures specified in AR 1312.3 - Uniform Complaint Procedures. Principals are

responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures.

Upon investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-8, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall have his/her employment terminated in accordance with law and the applicable collective bargaining agreement.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the district to monitor, address, and prevent repetitive harassing behavior in district schools.

For campus-specific bullying and cyber-bullying policies, please refer to the student and parent handbook distributed to all students at the start of each school year. Current versions will be available for review alongside this comprehensive safety plan in the BUSD- District Office.

As described in **BUSD Board Policy 5132**, The Board of Trustees believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students.

Through a collection of Board Policies, The Berryessa Union School District has established procedures to ensure the Safe Ingress and Egress of students, parents, and school employees to and from school. The list below shows applicable board policies and administrative regulations and how they contribute to this safety component:

BP 5142: “To assist students in safely crossing streets adjacent to or near school sites, the Board may employ crossing guards and/or establish a safety patrol at any district school. The Superintendent or designee shall periodically examine traffic patterns within school attendance areas in order to identify locations where crossing assistance may be needed.”

AR 3543: provides a framework for school bus transportation safety plans and procedures including, student and parent education, bus evacuation exercises, limitations on school bus operation in limited visibility conditions and exceptions to school bus capacity limits in emergency situations where students must be moved immediately to ensure safety.

BP 5131: holds students accountable for conduct not only on campus but also on their way to and from school.

BP 5131.7: prohibits the possession of weapons, imitation firearms or dangerous instruments of any kind with specific reference to times where students are on their way to or from school.

Each school site will also identify emergency evacuation routes identifying locations where students may assemble in response to fire, earthquake, bomb threats or other similar hazards. A map showing emergency evacuation procedures for each campus is included in Appendix C.7: Campus Emergency Evacuations Plans. In addition to the safety measures defined above, student safety will also be ensured through the control of the ingress and egress of campus visitors as defined in **BUSD Board Policy 1250**:

To ensure the safety of students and staff and avoid potential disruptions, all visitors shall report to the school office when first entering school grounds and shall follow school procedures for checking in and out of the school and for visiting classrooms and grounds.

For purposes of school safety and security, the principal or designee will develop and ensure use of a visible means of identification for visitors while on school premises.

BUSD Board Policy 5144 describes standards for discipline and provides administrative guidance for the consequences of misconduct:

The Board of Trustees is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and to preparing students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

When misconduct occurs, staff shall implement appropriate discipline and attempt to identify and address the causes of the student's behavior. Continually disruptive students may be assigned to alternative programs or removed from school in accordance with law, Board policy and Administrative Regulations. At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline.

Additional Board Policies are listed below, which describe overarching discipline standards for specific areas of concern. Violation of these items will result in student referral to campus administration at the minimum and may lead to suspension or expulsion. These include:

The Board of Trustees recognizes that students and staff have the right to a safe and secure campus free from physical and psychological harm and desires to protect them from the dangers presented by firearms and other weapons. The Board prohibits any student from possessing weapons, imitation firearms, or other dangerous instruments, as defined in law and administrative regulation, in school buildings, on school grounds or buses, at school-related or school-sponsored activities away from school, or while going to or coming from school. **BUSD Board Policy 5131.7**

The Board of Trustees desires to keep district schools free from the threats or harmful influence of any groups or gangs which exhibit drug use, violence or disruptive behavior. The Superintendent or designee shall take steps to deter gang intimidation of students and staff and confrontations between members of different gangs. He/she shall exchange information and establish mutually supportive efforts with local law enforcement authorities. The Superintendent or designee shall provide inservice training which helps staff to identify gangs and gang symbols, recognize early manifestations of disruptive activities, and respond appropriately to gang behavior. Staff shall be informed about conflict management techniques and alerted to intervention measures and community resources. The Board realizes that students become involved in gangs for many reasons, such as peer pressure, the need for a sense of belonging, and lack of refusal skills. Age-appropriate gang violence prevention education shall start with students in the early elementary grades and may start in kindergarten. To further discourage the influence of gangs, the Superintendent or designee shall ensure that school rules of conduct and any school dress code prohibiting gang-related apparel are enforced consistently. If a student exhibits signs of gang affiliation, staff shall so inform the parent/guardian. **BUSD Board Policy 5136**

The Board of Trustees desires to enhance student learning by striving to provide an environment where students and staff can feel safe and secure and can take pride in their school. To that end, the Superintendent or designee shall develop strategies for preventing graffiti and vandalism on school grounds, including collaborating with local law enforcement and city and county officials, as appropriate, to help develop a coordinated response to graffiti and vandalism in the community. Students and staff are encouraged to report any graffiti or vandalism to the principal or designee for investigation. The principal or designee shall determine whether the incident necessitates an investigation pursuant to the district's sexual harassment, hate-motivated behavior, or non-discrimination grievance procedure. As appropriate, the principal or designee may contact local law enforcement in instances when the graffiti is repetitive, identifies particular targets or groups, identifies the perpetrator, and/or contains incitements to violence, threats, or intimidation. Photographs or other evidence of the vandalism or graffiti shall be preserved as necessary for investigation by the district or law enforcement and as evidence in any district disciplinary proceedings. The principal or designee shall ensure that graffiti on school grounds is removed and covered as soon as possible, and if practicable before the beginning of the school day. A student who commits an act of vandalism or graffiti on school grounds shall be subject to disciplinary action, including, but not limited to, suspension or expulsion in accordance with Board policy and administrative regulation. If reparation for damages is not made, the district also may withhold the student's grades, diploma, and/or transcripts in accordance with law. **BUSD Board Policy 5131.5**

Additional code references: Penal Code 628

As stated in **BUSD Board Policy 5145.3**, District programs and activities shall be free from discrimination, including harassment, with respect to the actual or perceived ethnic group, religion, gender, color, race, ancestry, national origin, and physical or mental disability, age or sexual orientation.

The Board of Trustees shall ensure equal opportunities for all students in admission and access to the educational program, guidance and counseling programs, athletic programs, testing procedures, and other activities. Eligibility for choral groups shall be determined solely on the basis of objective competencies. School staff and volunteers shall carefully guard against segregation, bias and stereotyping in instruction, guidance and supervision.

The schools shall provide male and female students with separate shower rooms and sex education classes in order to protect student modesty. In physical education, when objective standards have an adverse effect on students because of their gender, race, ethnic group or disability, other standards shall be used to measure achievement and create comparable educational opportunities.

The Board prohibits intimidation or harassment of any student by any employee, student or other person in the district. Staff shall be alert and immediately responsive to student conduct which may interfere with another student's ability to participate in or benefit from school services, activities or privileges.

Students who harass other students shall be subject to appropriate discipline, up to and including counseling, suspension and/or expulsion. An employee who permits or engages in harassment may be subject to disciplinary action, up to and including dismissal.

The Board hereby designates the following position(s) as Coordinator(s) for Nondiscrimination:

Director of Special Education and Student Services
Berryessa Union School District
1376 Piedmont Road
San Jose, CA 95132
(408) 923-1841

Any student who feels that he/she is being harassed should immediately contact either the nondiscrimination coordinator or the principal or designee. If a situation involving harassment is not promptly remedied by the nondiscrimination coordinator, principal or designee, a complaint may be filed with the superintendent or designee who shall determine which complaint procedure is appropriate.
